

## About the DAREnet Project

DAREnet is a 5-year Coordination and Support Action funded by the European Commission. The DAREnet consortium forms the backbone of the transnational, multi-disciplinary network. It brings together a unique combination of renowned institutions and players in flood mitigation and civil protection. This consortium provides a broad and complementary coverage of the needed capabilities, the geographic balance, and strategic motivation to succeed. A long history of previous collaboration providing the basis for an effective execution of DAREnet and beyond.

Project duration  
Sep. 2017 – Aug. 2022

Project budget  
3.5 m EUR

## The DAREnet Consortium Partners

Federal Agency for  
Technical Relief

International Commission for the  
Protection of the Danube River

Austrian Red Cross

International Security and  
Emergency Management Institute

Hungarian Civil  
Protection Association

National Protection and Rescue  
Directorate, Republic of Croatia

Sector for Emergency  
Management, MOI, Serbia

Foundation "APELL National Center  
for Disaster Management"

Fire Safety and Civil  
Protection Directorate General,  
MOI, Bulgaria

ITTI Sp. z o.o.

University of Belgrade,  
Faculty of Security Studies

German Aerospace Center

City of Geel

ARTTIC S.A.S.

# A Practitioner Network to Strengthen Flood Resilience in the Danube Region

This project has received funding from  
the European Union's Horizon 2020  
research and innovation programme  
under grant agreement No 740750.

## Connecting National Practitioner Networks

DAREnet is organised as a network of national practitioner networks, led by dedicated DAREnet National Contacts (DNC). The DNCs are building in their countries multi-disciplinary practitioner communities to collect information about innovation needs and opportunities in an ongoing dialogue. The DAREnet project will unite these national communities in an open ecosystem to foster synergies, innovation and its uptake across the Danube Region. The network is supported by a broad range of stakeholders from policy, industry and research.

### DAREnet National Contacts

## DAREnet: Flood Response Innovation by and for Practitioners

The DAREnet project will enable Flood Management Practitioners in the Danube River Region to:

- **identify and analyse by and for themselves relevant innovation gaps.**
- **translate the gaps into a joint innovation strategy to improve flood resilience in the future.**

Until 2022, DAREnet will deliver an annual Innovation Roadmap highlighting promising innovation opportunities to cope with the main environmental and societal challenges of the region. The Roadmap will be the result of a systematic assessment and prioritisation of promising Innovations (->Roadmapping cycle). The DAREnet Roadmap will lay the basis for concrete innovation initiatives, practitioner-driven and “bottom-up”. For this, DAREnet will publish regular calls for initiatives, enabling practitioners to formulate and develop their ideas with the support of the DAREnet network.

Both, Roadmap and Initiatives, will be proactively promoted towards national and European Policy Makers to support future innovation strategies in the region.

## Join the DAREnet Community

The DAREnet Community is a truly collaborative environment bringing together practitioners, researchers, industry representatives and decision makers, to identify and analyse the most relevant innovation gaps, and to translate the gaps into a joint innovation strategy to improve flood resilience in the future.
